## TSP650 Series High Performance at Entry Level Pricing

Once again Star has designed a high spec., entry-level receipt printer which delivers high quality, 203 dpi receipts at a rapid 150mm per second given its unrivaled processing power.

Using Star's newly established method of measuring printer performance, the TSP650 Series is capable of producing 19 receipts per minute with graphics and 20 lines of text (with parallel interface), whilst still remaining at an entry-level price.

Model	Resolution (DPI)	Print Speed (mm/sec)	Cutter Life (million cut)
TSP650	203	150	100
TSP600	203	100	50

This entry-level printer is a true all rounder and is capable of printing high quality barcodes for coupons or tickets on media up to 85 µm.

The small and compact footprint printer has reliability built into literally every component, with the MCBF level of minimum 60 million lines between failures.

Enhanced guillotine cutter completes the list of well thought out components with the usual Star central partial cut allowing all hanging receipts, kitchen order etc, to hang patiently in straight line.

Wide choice of Interfaces

Optional Wall Mount plate included

"Drop-In & Print" Easy Load

### Typical Applications:

- Retail Point-of-Sales
- Ticketing
- Restaurant and Kitchens
- Shipping / Barcode Label

Tear Bar version

Autocutter version

**TSP651 Tear Bar version**  
**TSP654 Autocutter version**

Just like its USB counter part, the TSP100 FuturePRNT, the TSP650 Series is supplied with a series of accessories at purchase to enable rapid integration into your existing set-up.

- 1) Operating CD with a suite of drivers
- 2) Wall mount plate with vertical kit including both horizontal and vertical mount paper near end sensors
- 3) Paper guide for choice of 58mm or 80mm paper widths
- 4) Power switch cover to prevent accidental switch off
- 5) Start up paper roll

Buzzer

Vertical Display Stand

TSP650 series has following options :

- 1) Warning buzzer
- 2) Power supply PS60
- 3) Low cost Ethernet and USB interfaces
- 4) Splash proof cover
- 5) Vertical display Stand for in-store A5 Graphic use or additional space saving
