

Socket CompactFlash Scan Card 5P

Turn Your Pocket PC, Handheld PC, Pen Tablet or Notebook into a Performance Mobile Bar Code Scanner

If you're a mobile professional using a Pocket PC, Handheld PC or Windows notebook for an application requiring Performance data entry, Socket's CompactFlash (CF) Scan Card 5P may provide an incredible increase in productivity.

Virtual keyboards and handwriting/voice recognition are slow, error-prone methods of entering data into mobile computers. If the data to be entered is bar coded, using a laser scanner is 50 times faster and 10,000 times more accurate than manual data entry.

Socket's CF Scan Card 5P brings a new level of convenience and portability to mobile data collection by combining Socket's Mobility Friendly™ CompactFlash technology with the world's smallest and lightest laser scanner engine from Symbol Technologies. Just plug the card into your Windows-based mobile computer, launch the included SocketScan™ software, and read bar code data into any Windows application as if it had been typed on a keyboard. "Fuzzy logic" technology enables the reading of damaged, poor quality or hard-to-read bar codes.

Mobility Friendly Means Low Power

Socket designed the Mobility Friendly CF Scan Card to use minimal power. Drawing only 4 mA (13 mW) in idle mode, the CF Scan Card lets you operate for hours without having to replace or recharge your mobile computer's batteries.

FEATURES

- Type II CF card with integrated laser scanner plugs into Type II CompactFlash slot of a Pocket PC or mobile computer
- With CompactFlash-to-PC Card adapter (SKU# AC4001-515), works in PC Card (PCMCIA) slot of devices mentioned above (if applicable) or a Windows XP notebook*
- One-handed operation with a Pocket PC or mobile computer improves efficiency
- Uses state-of-the-art Class 2 824 laser scanner engine from Symbol Technologies. This is the smallest laser scan engine available today
- SocketScan keyboard emulation software works on Windows Mobile for HPC 2000 or Pocket PCs as well as Windows XP
- "Fuzzy logic" enables the reading of damaged, poor quality, and hard-to-read bar codes
- Scan outdoors in direct sunlight
- SocketScan allows the user to add Prefix and/or Suffix functions, such as Carriage Return and Tab, to further eliminate manual keystrokes
- SocketScan enables you to assign a scanner trigger button, and also a beep tone or .WAV file to signify a successful scan
- Any of 18 bar code symbologies can be easily enabled/disabled with SocketScan's "Symbology Selector"
- SocketScan "Scan Demo" reports symbology, length and decoded data (in ASCII or Hex) of any scanned bar code (of 18 supported symbologies)
- No extra batteries or special power adapter required — the ISC gets power from the mobile computer
- Works with Windows-based development tools so you can easily create custom applications
- SDK available to application developers

Socket CompactFlash Scan Card 5P

Product # IS5026-610

socket

Manicon Technology Limited

Unit 12, 8/F, New City Centre, Kwun Tong,
Kowloon, Hong Kong

Tel: 2836-3162 Fax: 2836-3093

E-Mail: sales@manicon.com

Web Page: <http://www.manicon.com>

SPECIFICATIONS

Physical Characteristics:

CF Card Size: 43 x 43 x 5 mm

Scanner Head Size: 83 x 51 x 20 mm

Total Mass: approx. 34 g

Power Consumption (with 3.3V):

Idle: 4 mA (13 mW)

Scanning: 140 mA (462 mW)

(Also operates on 5V supply)

Bar Code Symbologies Decoded:

Code 39, UPC/EAN/JAN, MSI,
Code 128, Code 93, Codabar,
Interleaved 2 of 5, Discrete 2 of 5,
RSS-14, RSS-Limited/Expanded
Stacked

Operating System Support:

- Windows Mobile for Pocket PC
2000/2002/2003 and HPC 2000
- Windows XP

Compatibility: Windows COM Port

Class 2 Decode Distances:

2.2 to 60+ inches (depending on
symbol size, symbology, label
media, W-N Ratio, and scan angle)

Environmental Conditions:

Operating Temp:

-4° to 131° F (-20° to 55° C)

Storage Temperature:

-40° to 140° F (-40° to 60° C)

Humidity: 5-95% non-condensing

Certification:

FCC: Part 15, Class B

CE: EN55024:1998, C-TICK s.182

CompactFlash Spec. 2.0

Laser: Class 2 laser

Interface Standards:

- CompactFlash (CF) Type II
- PC Card (PCMCIA) with Type II
CF-to-PC Card adapter, available
separately: Product # AC4001-515)

SocketScan™ Software:

- Reads bar code data into any Windows
application as if manually typed
- Lets you add Prefixes and/or Suffixes
(e.g., Carriage Return) to further reduce
manual keystrokes
- Lets you assign a beep tone or .WAV file
to signify a good scan
- Lets you easily enable/disable any of 18
common symbologies
- Scan Demo reports symbology, length
and decoded data (in ASCII or Hex) of
any scanned bar code (for 18 supported
symbologies)
- SDK available for developers

Class 2 Laser Decode Zone

Note: Guaranteed performance at 73° F (23° C)
on high quality symbols.
